We're Snappi

Snappi is more than just online banking. Our mission is to bring you a banking experience that reflects your lifestyle. At Snappi, we think your bank should adapt to you, not the other way around.

A [Piraeus Financial Holding \(PFH\)](#) subsidiary and the first Greek neobank to receive a license from the European Central Bank. This makes us more than just a great finance app. It allows us to offer personal and business banking experiences within Greece and across the EU.

Banking the way you want to live
